Education

California State University, Northridge — B.S. in Computer Science, Minor in Mathematics | GPA: 3.3 | Expected Graduation May 2027

On-Campus Involvement:

- **Layer 8 Cybersecurity Club** — participated in OverTheWire wargames and workshops to develop foundational cybersecurity and networking skills
- **Game Development Club (officer)** -- Designed and delivered presentations and instructional sessions on getting started in game development, including hands-on courses on Unreal Engine and Godot

Technical Skills

Hardware & Support: Hardware troubleshooting, device configuration, mobile device setup, end-of-life equipment processing

Operating Systems: Windows 10/11, Linux (Ubuntu, Kali Linux)

Tools & Platforms: VMware, VS Code, Git, Remote support (Teams, FaceTime), Automod

Languages: Java, Python, C, GDScript

Other: System backups, User account management, Software installation & updates, Group Policy Object

Project

Virtualized IT Lab (Windows and Linux) | [Personal Project](#)

- Deployed and maintained Windows 11 and Linux virtual machines to simulate a real-world desktop support environment, performing software installations, system updates, and configuration changes
- Configured user accounts, access permissions, and system settings to replicate IT support workflows — including troubleshooting hardware conflicts, software errors, and basic network issues
- Simulated equipment lifecycle tasks including system provisioning, configuration documentation, and decommissioning of end-of-life virtual instances with ticket-style record-keeping throughout

Automod Simulation Prototype | [CSUN Research Assistant Onboarding](#)

- Developed a small prototype to demonstrate workflow automation and process coordination concepts; strengthened technical documentation reading and self-directed learning skills

Work Experience

IT Technician | [CSUN IT Help Center](#)

August 2026 – Present

- Provided telephone and in person technical support for campus technology services to students faculty, and staff
- Supported end users across iOS, Android, Windows 10/11 and macOS along with the CSUN portal, campus email, and Canvas
- Assisted with WIFI configuration, user log in, DUO authentication under the direction of lead technician
-

Security Supervisor | [Contemporary Services Corporation \(CSC\)](#)

June 2024- Present

- Supervised and directed teams of up to 12 personnel to ensure operational efficiency, full post coverage, and adherence to established safety protocols and procedures
- Led on-site operations by resolving incidents, managing real-time communications with stakeholders, and maintaining accurate shift documentation during high-attendance events
- Coordinated staff assignments and responded to escalating situations, demonstrating strong multi-tasking and user communication skills under pressure
-

Camp Counselor | [Encino Community Center](#)

June 2024 – Present

- Managed groups of up to 25 participants, ensuring safety, engagement, and smooth execution of daily activities across summer and winter camp sessions
- Provided basic technology orientation and guidance to staff and participants, adapting instructions to varying levels of familiarity with equipment and software
- Maintained daily opening and closing operational procedures, kept accurate attendance and incident records, and administered first aid as needed
